APPEARANCES

COMMISSIONERS:

Christopher Cook - Chairman
John Collier
Troy G. Crowther (via videoconference)

Also present:

Dennis Belcourt - Deputy Attorney General
Kathy Easley
Anna Vickrey
Kimberly Whitfield (via videoconference)
Dave Coon (via videoconference)
Alan Perazzo
Gary Leck

Public Meeting - 1/21/2016
Nevada Dairy Commission

1 ***

2 FALLON, NEVADA, THURSDAY, JANUARY 21, 2016, 1:00 PM

3 ***

4 CHAIRMAN COOK: Let us open the January, 2016
5 meeting of the Nevada State Dairy Commission. Anna,
6 would you do the honors, please?

7 MS. VICKREY: Certainly. This is the time and
8 place set for a regularly scheduled meeting of the
9 Nevada State Dairy Commission for the month of January,
10 2016.

11 This meeting has been scheduled and noticed in
12 compliance with pertinent statutes, including the Open
13 Meeting Law. A copy of the agenda has been handed to
14 the court reporter with the request that it be part of
15 the official transcript of these proceedings.

16 My name is Anna Vickrey, Operations Manager,
17 Food Safety for the Department of Agriculture.

18 Present today are Mr. Christopher Cook,
19 chairman; Mr. Troy G. Crowther, member of the
20 Commission; Mr. John Collier, member of the Commission.

21 Those who present statements or evidence to the
22 Commission during this meeting are requested to first be
23 acknowledged by the Chairman and to identify themselves
24 for the record.

25 CHAIRMAN COOK: Thank you. Would you proceed

1 to the first agenda item, please?

2 MS. VICKREY: Yes. For possible action,
3 license application for a processing distributor --

4 CHAIRMAN COOK: Public comments.

5 MS. VICKREY: Oh, excuse me. Public comments
6 and discussion.

7 CHAIRMAN COOK: We have two time slots for
8 that, so we can -- anybody want to make any comments now
9 or hold them until a little bit later in the meeting, we
10 can address those.

11 Seeing none, let's move on to the next item,
12 please.

13 MS. VICKREY: Item number two for possible
14 action, license application, processing distributor for
15 Westgate Las Vegas Resort & Casino, 3000 Paradise Road,
16 Las Vegas, Nevada, 89109.

17 The applicant seeks a license to distribute
18 fluid milk, fluid cream, yogurt, cottage cheese, butter,
19 ice cream, sherbert, novelties and frozen yogurt in the
20 Southern Nevada Marketing Area.

21 The applicant's prices and costs have been
22 reviewed by members of the Dairy Commission staff and
23 are in compliance with this agency's laws and
24 regulations. The applicant will be responsible for the
25 assessments.

1 CHAIRMAN COOK: Do we have anybody representing
2 this applicant present?

3 MR. CROWTHER: Not here.

4 MS. EASLEY: Kathy Easley. This is Las Vegas
5 Hilton. They had -- the name changed, but all the
6 management and everything stayed the same. They just
7 changed the name, so we're changing it from -- it went
8 from Las Vegas Hilton to LV Hilton Resorts and now
9 they're going to Westgate.

10 CHAIRMAN COOK: And they actually distribute
11 fluid milk, or --

12 MS. EASLEY: In the casino, yeah, they sell it.

13 CHAIRMAN COOK: You have to have a processing
14 distributor to do that?

15 MS. EASLEY: Well, they make product and then
16 they sell it in the restaurants and the casino.

17 CHAIRMAN COOK: Okay, for retail sales through
18 the restaurants. All right, I have no further
19 questions. Troy, any questions?

20 COMMISSIONER CROWTHER: No questions.

21 CHAIRMAN COOK: John?

22 COMMISSIONER COLLIER: I have none.

23 CHAIRMAN COOK: Questions or comments from the
24 staff? Members of the public?

25 Seeing none, I'll entertain a motion.

1 CHAIRMAN COLLIER: Mr. Chairman, I move that we
2 accept the processing and distributor application from
3 the Westgate Las Vegas Resort & Casino in Las Vegas to
4 distribute fluid milk, yogurt, cottage cheese, butter,
5 ice cream, sherbert, novelties and frozen yogurt in the
6 Southern Nevada Marketing Area.

7 COMMISSIONER CROWTHER: Second.

8 CHAIRMAN COOK: Having a motion and a second
9 and no dissenting vote, the motion carries and the
10 license is granted.

11 Move on to the next item, please.

12 MS. VICKREY: Item number three for possible
13 action, approval of the minutes for the December 17th,
14 2015 Dairy Commission meeting.

15 CHAIRMAN COOK: Any other corrections other
16 than those noted, other than on the cover page?

17 MS. EASLEY: No.

18 CHAIRMAN COOK: It shows December 17, 2016. I
19 don't know if that's important or not.

20 COMMISSIONER CROWTHER: What is the change at
21 Page 16, line 24? What exactly is the change there?

22 MS. EASLEY: Diarymen to dairymen. It's a
23 spelling error.

24 COMMISSIONER CROWTHER: It looks like the same
25 name.

Public Meeting - 1/21/2016
Nevada Dairy Commission

1 MS. EASLEY: No, it's d-i-a versus d-a-i.

2 COMMISSIONER CROWTHER: But on here it's both
3 d-a-i.

4 MS. VICKREY: It was typed wrong. It was
5 diarymen and it should be dairymen. We'll look it up
6 again.

7 COMMISSIONER COLLIER: On my page it says "kill
8 birds. Mr. Trace, kill birds."

9 MS. EASLEY: Page 16, line 24?

10 COMMISSIONER COLLIER: That's what it says.

11 MR. BELCOURT: It's Page 15, line 24 is where
12 the change needs to be made. Dennis Belcourt for the
13 record, the page before.

14 MS. VICKREY: Did you hear that? It's Page 15,
15 line 24.

16 COMMISSIONER CROWTHER: Okay.

17 MS. EASLEY: If you would like, I will retype
18 the correction to the minutes and have them approved at
19 the next meeting.

20 MR. BELCOURT: We can do it now, get it fixed
21 now.

22 COMMISSIONER CROWTHER: We can just fix it in
23 the motion, can't we?

24 MR. BELCOURT: Yes.

25 CHAIRMAN COOK: All right. Page 16, line 12

1 does not appear to match. It says change "testified" to
2 "tested", and Page 16, line 12 in my minutes are "Troy,
3 yeah."

4 MS. EASLEY: Then try Page 15.

5 MR. BELCOURT: Page 15.

6 MS. EASLEY: Page 15, line 12.

7 MS. VICKREY: Why don't I read this corrected
8 and then you can approve it as read. "The minutes of
9 the State Dairy Commission meeting held between the
10 Reno, Nevada and Las Vegas, Nevada offices on
11 December 17th, 2015 were approved with the following
12 corrections: Page 15, line 12, change "testified" to
13 "tested"; Page 15, line 24, change "diarymen" to
14 "dairymen."

15 CHAIRMAN COOK: Okay, sounds good to me. I
16 will entertain a motion unless anybody has other
17 comments.

18 COMMISSIONER CROWTHER: I will make the motion
19 to approve the minutes of the December 17th, 2015
20 meeting as corrected.

21 COMMISSIONER COLLIER: I'll second that, Mr.
22 Chairman.

23 CHAIRMAN COOK: Having a motion and a second to
24 approve the corrections to the corrections and the
25 minutes in general and no dissenting votes, the minutes

1 are adopted and we can move on to the next agenda item.

2 MS. VICKREY: Item number four, update on the
3 Starlicide program. So what we did is obviously we're
4 not able to use the Starlicide that we wanted because it
5 was not available, so we did some training here in
6 Fallon on the Avitrol product.

7 I believe ten members showed up to go through
8 the training and about eight went through the testing,
9 so it will be approved to put the Starlicide out on the
10 dairy farms.

11 CHAIRMAN COOK: The Avitrol?

12 MS. VICKREY: Yeah, the Avitrol. I haven't
13 heard any feedback from any Fallon members, but we have
14 from the Ponderosa dairies down south, but we're not
15 quite sure because they did not come to the training
16 whether that was applied properly. They only used about
17 ten pounds and they have three very large dairies down
18 there, so we're going to work with them to see if we can
19 improve their methods.

20 Do you have any comments, or have you heard
21 any?

22 MR. PERAZZO: I haven't. I went to the
23 meeting. I went to the training and took the test which
24 I haven't done for a long time, so that was kind of fun.
25 But anyway, I thought it was very good. I thought the

1 whole training was good.

2 It was two separate days. We did the training
3 one day and took the test the next. I haven't heard
4 back as far as pass/fail or anything like that. There
5 was a guy there from a commercial outfit that you could
6 hire to do it. Sam, I believe, maybe. Do you know?

7 MS. VICKREY: I'm not sure of the name.

8 MR. PERAZZO: Anyway, he was out of Elko, so I
9 thought the whole thing was very --

10 CHAIRMAN COOK: Have you used the product yet?

11 MR. PERAZZO: Haven't used it. I can't yet
12 until I get licensed to do it. I don't think anybody
13 has, have they?

14 MS. VICKREY: I'm not sure. I thought that
15 once you took the test and passed that you were
16 licensed.

17 MR. PERAZZO: And I haven't heard back if
18 anybody passed.

19 CHAIRMAN COOK: Who administered the test?

20 MS. VICKREY: The Department of Agriculture,
21 Chuck Moses.

22 CHAIRMAN COOK: Is that a process once they're
23 licensed, they're good for several years, or do they
24 have to go through recertification process?

25 MS. VICKREY: I believe it's a recertification.

1 MR. PERAZZO: Four or five years, and it's not
2 a license as much as it's a certification. You'd have
3 to be licensed if I was to do it on another dairy.
4 That's the way I understand it. I'm just certified to
5 do it on my dairy for my personal use.

6 CHAIRMAN COOK: So if we get in a situation
7 again where there's no Starlicide for the next several
8 years, then we're okay without having to go through this
9 training process and this certification process?

10 MS. VICKREY: Correct, and like you said, they
11 can hire a private party that's licensed to do that and
12 I believe that's why the gentleman that will do it
13 commercially here for everybody is also available to
14 hire.

15 MR. PERAZZO: There was probably five or six
16 dairies there represented, but they were the large ones
17 I think, more like Turners and Olsons and Storms. As
18 far as cow numbers, I bet there was three-quarters of
19 the cow numbers. I don't know, I'm guessing, but --

20 COMMISSIONER COLLIER: That's pretty good.

21 MS. VICKREY: And just to note, also, I'm going
22 to the Tulare ag show next month and I'm going to be
23 going around to some of the vendors out there and
24 inquiring about other methods. Just in case you're not
25 satisfied with the Avitrol, we'll see what other

1 chemicals are out there for use.

2 MR. PERAZZO: I think there was mixed feelings
3 on that Avitrol, too, just because no one has used it
4 around here and they're unsure and all you hear is
5 reports and you put down -- I mean, the advantage of it,
6 I think the bird dies where the bird eats it, whereas
7 last year it was kind of a nightmare because the bird
8 eats it and then it flies back to where it roosts and it
9 dies there, and where it roosts could be someone's
10 backyard and then you have birds around, so it kind
11 of -- I think that part will be good.

12 But from what I understand, the bird eats it
13 and scares the other birds away so they don't eat it, so
14 then your kill rate isn't as good. Is that what they
15 found down south? You said they did it.

16 MS. VICKREY: Well, it's not the kill rate
17 you're looking for because you don't actually kill a lot
18 of them. The idea is they make this shrieking noise
19 that scares the other birds away and they're afraid to
20 come back to that same area, and so that's the idea, so
21 you really have to apply it properly.

22 You have to bait them for three or four days
23 and then they come and eat it. They make the shrieking
24 noise and scare the other birds away, so that's why we'd
25 like to see a coordinated effort so that it just doesn't

1 go from one dairy farm to the next.

2 CHAIRMAN COOK: You need lots of shrieking
3 birds on all the dairies.

4 MS. VICKREY: So it's not as effective as the
5 Starlicide would be where it would just kill the birds.

6 CHAIRMAN COOK: The issue with the Starlicide
7 was one year only, right? It was an availability issue
8 this year. Is that something that's permanent, or is
9 that subject to change?

10 MS. VICKREY: My understanding is the company
11 that was making it -- well, my understanding is that the
12 companies that make it don't make a lot of money off of
13 it, and so they'll make it for a little while and
14 discontinue it and so it's always jumping around the
15 different companies.

16 CHAIRMAN COOK: I thought it was the federal
17 government that --

18 MR. PERAZZO: I think you're right, I think it
19 was a one year layoff because I think the place that
20 makes it was remodeling or something. It was something
21 where they were not doing it this year, so that's the
22 way I understand it.

23 MS. VICKREY: Yeah, and USDA has to apply it.
24 They can only apply it, but this other company is the
25 one that makes it and I believe they were the only

1 company making it and then they're going through some
2 sort of transition.

3 MR. PERAZZO: Or remodeling or something.

4 CHAIRMAN COOK: We'd like to keep on top of
5 this and know how it works for you and see if we can't
6 come up with better alternatives.

7 MR. PERAZZO: It's definitely a huge issue.
8 The birds are incredible.

9 MS. VICKREY: And, of course, we are still
10 funding it at 80 percent up to \$2000, so whether it
11 works or not, we'll be reimbursed.

12 CHAIRMAN COOK: We're going to have to go --
13 was it the next budget cycle we have to go through and
14 re-budget that again?

15 MS. VICKREY: Yes.

16 CHAIRMAN COOK: So we're working off of last
17 budget cycle's allocation?

18 MS. VICKREY: Yes.

19 CHAIRMAN COOK: Okay.

20 COMMISSIONER COLLIER: Have we done anything,
21 is there any aftermath to the community like there was
22 in previous years where the birds wound up in somebody's
23 backyard and got killed and then they called the
24 newspaper and raised cane about that and then our
25 Department of Agriculture got the call and had to defend

1 the issue and all that type of thing? Have we done
2 anything to mitigate that in terms of the public
3 relations officers for the Department of Agriculture?

4 MS. VICKREY: We did discuss it with them and
5 since this is a different type of product, the birds die
6 right there at the facility, so we're not seeing the
7 birds dead in other people's yards.

8 CHAIRMAN COOK: Okay. Anything else to add to
9 that?

10 MS. VICKREY: No, that's all I have.

11 CHAIRMAN COOK: Questions, comments,
12 observations?

13 All right, let's press on to the next item.

14 MS. VICKREY: The staff report. Just briefly,
15 I'm going to be attending the International Association
16 of Milk Control Agencies meeting in Sacramento at the
17 end of this month. It's two days.

18 CHAIRMAN COOK: That's the planning meeting for
19 the August --

20 MS. VICKREY: Yes, and I'm also attending the
21 ag show in Tulare and that will be February 8th through
22 the 11th, and there we're still trying to talk to some
23 dairymen, try to get them to consider coming into this
24 area to open a dairy farm possibly so we can continue to
25 support our power plant as well, and then the only other

1 thing is we're doing some FDA training to try to get
2 Erica certified as a rating officer, and David, our new
3 microbiologist, we've got some federal courses coming up
4 for him to get him certified as a laboratory evaluation
5 officer and a dairy lab manager.

6 The fortunate thing is FDA is funding all of
7 those this year, so we'll have a little bit of cost
8 savings on those.

9 CHAIRMAN COOK: And we've got the lab all up
10 and running to the level we want with equipment?

11 MS. VICKREY: We're pretty much there. A few
12 things, processes really that we're still working on.
13 There may be some more equipment issues, but we'll deal
14 with that in the next budget session.

15 CHAIRMAN COOK: Weren't there some software, or
16 some computer hardware that we were looking to acquire
17 to comply with FDA reporting issues?

18 MS. VICKREY: Some of it is going to be more of
19 a lab information management system because we have to
20 have tracking requirements every time you change a
21 document, and that's to become ISO certified, and we
22 have some security issues where we're going to have to
23 put a key card system into our lab because of some of
24 the biologics that we work with, and we're just now
25 working on getting some of our cheese testing completed.

1 Right now we can screen for listeria,
2 salmonella and E. Coli, but we can't confirm, so we're
3 working on some techniques to confirm those on the
4 cheese if we need to.

5 CHAIRMAN COOK: Okay. Questions, Troy?

6 COMMISSIONER CROWTHER: No.

7 COMMISSIONER COLLIER: I have none.

8 CHAIRMAN COOK: Shall we press on then with
9 your report?

10 MS. VICKREY: Item number six, consideration of
11 any other matters relating to the dairy industry.

12 CHAIRMAN COOK: This is the chance for our
13 industry participants to speak up and put things on the
14 table.

15 MR. LECK: I have nothing.

16 MS. VICKREY: I did want to ask you a question.
17 Last meeting we approved to take off the fluid milk
18 assessments. Is that going to be beneficial to you as
19 far as --

20 MR. LECK: Absolutely, without question.

21 CHAIRMAN COOK: Have we started that? That was
22 to start this year, right?

23 MS. VICKREY: Yes, it starts this month.

24 CHAIRMAN COOK: I see Mr. Coon has joined us.
25 Do you have anything to add, Dave?

1 MR. COON: No, I don't, Mr. Chairman. Good to
2 be here.

3 CHAIRMAN COOK: Any other thing that people
4 want to throw on the table now for items of concern to
5 the industry?

6 MR. PERAZZO: Well, I'm glad to be here. Thank
7 you for the invite. It's not your fault I haven't come
8 more. I just haven't.

9 CHAIRMAN COOK: We appreciate you being here.

10 MR. PERAZZO: I know you, Chairman Cook, and
11 you're obviously on the Board and I know Anna very well,
12 and Dennis. Now, you are who?

13 MR. LECK: Gary Leck with Model Dairy.

14 MR. PERAZZO: Okay. I'm Alan Perazzo.

15 MS. EASLEY: Kathy Easley. I'm the
16 administrative assistant here.

17 CHAIRMAN COOK: You produce it, he bottles it
18 and we drink it.

19 MR. PERAZZO: I guess my comment is thank you
20 to the Dairy Commission for all you do, Anna, and I'm
21 just here observing. I got a hurt toe, so I thought,
22 well, there's a meeting going on, I'll go to it, and I
23 guess I got a meeting tomorrow, huh, Dennis?

24 MR. BELCOURT: Yes, you do.

25 MR. PERAZZO: I guess my big concern in the

1 industry is public perception of what reality is and
2 where milk comes from and what dairy products are and
3 how animals are treated, just that whole negative
4 perception. I'm just throwing it out there. I don't
5 have an answer to any of it other than I think education
6 is the key.

7 We had a class of 2nd graders out in the dairy
8 about a month ago, two months ago now, and they just
9 need to be educated where milk comes from, where beef
10 comes from, where the quality wholesome dairy product
11 comes from, and I just don't know how we can emphasize
12 that message enough.

13 CHAIRMAN COOK: We're trying to -- we hear you
14 and we're trying to take that message as much as we can.
15 We have in the last couple of years bought the
16 fiberglass cow that we take around to all the schools,
17 Moolissa, and Kathy used to don the cow uniform and go
18 to the county fairs and man a booth.

19 MR. PERAZZO: Cowabunga, right?

20 MS. EASLEY: No, no, Moolissa.

21 CHAIRMAN COOK: We have a cow and a trailer
22 coming?

23 MS. VICKREY: I'm sorry, the trailer has
24 arrived, I forgot to say that.

25 CHAIRMAN COOK: We have a well equipped trailer

1 that has AV capabilities and we can transport this cow
2 and take it to county fairs and schools and the state
3 fair and all over the place in the north. Is the cow
4 still in the south, or do we have it back yet?

5 MS. VICKREY: It's back.

6 CHAIRMAN COOK: And there's another cow on
7 order I understand pending the new budget cycle. We're
8 buying one for the south?

9 MS. VICKREY: We have to have legislative
10 approval, but once we go through that, yes.

11 CHAIRMAN COOK: So we will have on either end
12 of the state a very nice trailer with audiovisual
13 capabilities and a big fiberglass full size, full
14 steam --

15 MR. PERAZZO: I think that's all important. I
16 know when the kids come out to the dairy, I like to do a
17 little quiz with them and I'll hold up different things
18 like pizza, does this have a dairy product in it, and
19 your Model Dairy, oh, yeah, and then I'll hold up Muscle
20 Milk and then I'll educate them, no, there's no milk in
21 that at all, things like that.

22 I think the kids are -- I kid you not,
23 50 percent of the kids will say there's milk in there
24 until I talk to them about it. Anyway, it's my
25 little --

1 CHAIRMAN COOK: The gentleman sitting down
2 there against the wall, Dave Coon, what do you call
3 yourself, CEO of Anderson Dairy and they've got a very
4 nice tour that they do. It shows the kids all about
5 where the milk comes from and they've got a Disney type
6 of audio animatronic show. It's quite extravagant, so
7 if you're ever down in Vegas you should go to Anderson
8 Dairy and check it out.

9 MR. COON: We would like to extend that
10 invitation to you any time.

11 CHAIRMAN COOK: We're all working, we're all
12 pulling for the same thing, just at different ends of
13 the state, but we would like to see consumption go up
14 and more processors and more producers and more people
15 drink milk and eat yogurt and cheese and all that good
16 stuff.

17 MR. PERAZZO: Thank you.

18 CHAIRMAN COOK: Our pleasure. We're trying our
19 best.

20 MS. VICKREY: And last on the agenda is public
21 comments and discussion:

22 CHAIRMAN COOK: Which sort of overlaps with
23 what we've been doing, but it's time for anything else,
24 even non dairy related public comments I guess.

25 COMMISSIONER CROWTHER: Chairman, I have a

1 question, and I don't want to take public's time.

2 Unless there's something else they have, I want to -- I
3 understand that this time next month, the folks here in
4 Las Vegas are going to be in the process of moving to
5 the new location, and correct me if I'm wrong, you'll be
6 working from home?

7 MS. WHITFIELD: I'm not sure if we'll be here
8 or the new location, but that last week of February
9 we'll be working from home.

10 COMMISSIONER CROWTHER: Just kind of a heads-up
11 as far as planning this videoconference and where it's
12 going to originate down here, we probably ought to get
13 those logistics worked out.

14 CHAIRMAN COOK: We'll just Skype with you from
15 your office, Troy.

16 COMMISSIONER CROWTHER: There you go.

17 MS. VICKREY: There's a possibility we could
18 use the other Cooperative Extension offices down there
19 if we need to.

20 CHAIRMAN COOK: Are the new offices set up yet?

21 MS. VICKREY: No.

22 CHAIRMAN COOK: Well, we may just have to fly
23 you up for the meeting, back to the old ways.

24 COMMISSIONER CROWTHER: Yeah. Well, anyway,
25 just give me some heads-up and we'll figure out how to

1 make it work.

2 CHAIRMAN COOK: Okay. I have a question about
3 the ag fair in Tulare. Did we get a different location?
4 Weren't we trying to relocate to a better spot?

5 MS. EASLEY: They are not in the milk barn.
6 They are outside the milk barn. They're outside, but
7 near the milk barn. I was talking to Jessica and she
8 was telling me that they're close to the milk barn.
9 They're going to set the trailer up, but it is outside
10 of the milk barn.

11 MS. VICKREY: But we'll have the trailer and
12 all the supplies I believe right there for us to use if
13 we need it.

14 MS. EASLEY: The trailer is the whole display.

15 CHAIRMAN COOK: Do we have anybody from like
16 the Churchill County economic development people, or the
17 State's economic development people going to be with us?

18 MS. VICKREY: We are taking four people from
19 the Department of Agriculture and one of those is, he
20 works to bring businesses into the State and we always
21 have somebody from Churchill County show up regardless
22 at the show, and many dairymen we see out there. Are
23 you going?

24 MR. PERAZZO: I don't believe I am. I've been
25 in the past and it's pretty neat.

1 CHAIRMAN COOK: And do we know the dates on
2 that?

3 MS. VICKREY: February 8th through the 11th is
4 when I'll be there, but I think I'm there a day early
5 for setup.

6 CHAIRMAN COOK: One of these years I think I'm
7 going to show up down there just to check it out to see
8 what it looks like.

9 MS. EASLEY: Make sure you have good walking
10 shoes. It's huge.

11 CHAIRMAN COOK: We've never been in the
12 building, though, have we?

13 MS. EASLEY: Yeah, Lisa and I were in the
14 building two years and I think she was in it once the
15 year before that.

16 MS. VICKREY: I believe so, yes.

17 MS. EASLEY: The first year we were outside,
18 the next three years we were inside, and now they're
19 outside again.

20 CHAIRMAN COOK: Is that just because of the
21 trailer?

22 MS. EASLEY: I believe so.

23 CHAIRMAN COOK: All right. Well, I have no
24 other comments or questions. John, do you have anything
25 you want to add?

Public Meeting - 1/21/2016
Nevada Dairy Commission

1 COMMISSIONER COLLIER: No, I have none.

2 CHAIRMAN COOK: Troy, anything else you want to
3 add?

4 COMMISSIONER CROWTHER: No.

5 CHAIRMAN COOK: Alan, do you want to throw
6 anything else on the table?

7 MR. PERAZZO: No.

8 CHAIRMAN COOK: Dave, any comments?

9 MR. COON: No. Thank you for all you do.

10 CHAIRMAN COOK: You're welcome. Thank you for
11 thanking us. Are we cool, Dennis?

12 MR. BELCOURT: I think you got all the public
13 polled.

14 CHAIRMAN COOK: Last call for staff? Anything
15 else? If there's none, then let us adjourn this
16 meeting.

17 (Meeting adjourned at 1:30 p.m.)
